

COMMON CORE Standards Made EASY!

with Donna Whyte

Appropriate for Teachers and Administrators grades K -5

Once again educators face "something new," as Common Core standards spread through the education system. We need a straightforward explanation that outlines the benefits of the Common Core in plain English, provides a precise overview, and gets educators on the "same page" in order to transition to this promising new concept.

Join Donna in this day-long workshop that will examine The Common Core Standards and what they mean to you. Deepen your understanding of best practice and scientifically based instruction. This workshop will provide an overview of the benefits, examine the alignment to your present standards and provide you with great strategies and activities to help you move forward to successful implementation.

Come investigate the best way to create a reporting system that is both teacher-friendly and parent-friendly and gives an accurate assessment of the new Standards. There will be opportunities to create materials that you can use when you return to your classroom. Get ready for a day of learning, fun and motivational tips that will allow you to become an educator with a vision for the 21st Century!

Donna Whyte, Teacher and National Staff Development Presenter has been working with schools in Illinois and other states to lead district teams in implementing the Common Core Standards grades K-5.
