

Rock and Roll Kindergarten

FEATURING: KURT SCHWENDEL

Kurt began his teaching career in 1995 and immediately starting looking for ways to update kindergarten curriculum. His criteria for choosing themes was simple: What do 5 year olds like to do and which of those activities could you build a theme around? He observed which books children were fighting over in the library and began building his themes around those subjects. Rock and Roll Kindergarten was born.

Kurt says, "The name "Rock and Roll Kindergarten" is not a reference to the music that I play in class but a reference to a changing of the times in education. Just as Rock and Roll music was seen as rebellious when it first appeared, "Rock and Roll Kindergarten" will also be viewed by some as rebelling against traditional Kindergarten themes and practices. However, as a student of the original Froebellian Kindergartens, I can tell you that this program has some very traditional components to it. While I am bound by the state standards academically, I try to allow 4 , 5 and 6 year olds to act their age by dressing up and becoming fully engaged in themes that truly interest them."
